DESCRIPTION OF TRESFJORD 390 ATLANTIK

Tresfjord 390 Atlantik, is a Norwegian designed quality cruiser that combines generous accommodation, very good seaworthiness and high comfort in all conditions.
The hull was designed in Norway back in 2001 as a 37 footer, but was then extended to the now 39 feet when transfer of ownership to Tresfjord AB in Sweden.
On board, Tresfjord has designed a very well-planned interior with high comfort for 4-5 people, while the teak deck, large swimming platform, electric windlass and a comprehensive equipment package contribute to easy handling and an almost carefree boating life.
This very well-equipped example from 2005 is powered by twin Volvo Penta D6-310 with DPH drives and only 550 engine hours on the clock, which provides a fine combination of performance, reliability and efficiency. Bow and stern thrusters with remote control ensure easy and safe manoeuvring even in small ports.
The boat is continuously updated and equipped with modern navigation equipment from Raymarine, radar, AIS and autopilot. Engines and sterndrives have been well maintained according to Volvo guidelines.
This Tresfjord 390 Atlantik is a very well-maintained cruiser that is seaworthy and ready for new owners to embark on both coastal and even longer adventures e.g. through Europe to the Mediterranean, if you want.
Data:
Length: 12.25 m
Beam: 3,6 m
Draft: 1.1 m
Fuel: 800 ltrs
Water: 400 ltrs
Holding tank: 100 ltrs
Standing height 2.0 m
